1.0 INTRODUCTION

Lamledge School is an Independent School for students aged between 5 years and 19 years, experiencing social, emotional and mental health difficulties. The school is registered for up to 105 young people.

At Lamledge School we are committed to giving all of our students the opportunity to achieve their very best. Therefore we provide an environment which takes into account the needs of all individuals regardless of their educational, physical, and emotional needs.

Purpose of Plan

The purpose of this plan is to show how our educational setting intends, over time, to increase accessibility to the physical environment, the curriculum and written information so that all students/students with a disability can take full advantage of their education and associated opportunities.

Definition of disability

A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

Key Aims

To increase and eventually ensure for students/students with a disability that they have:

- total access to our setting's environment, curriculum and information
- full participation in the school community.

Key Principles

- Compliance with the Equality Act is consistent with our setting's aims and equal opportunities policy and SEN information report.
- Our staff recognise their duty under the Equality Act:
- Not to discriminate against disabled students in their admissions and exclusions, and provision of education and associated services
- Not to treat disabled students less favourably
- To take reasonable steps to avoid putting disabled students at a substantial disadvantage
- To publish an accessibility plan
- In performing their duties our school governors have regard to the Equality Act 2010
- Our Setting recognises and values the young person's knowledge and parent/carer's knowledge of their child's disability
- recognises the effect their disability has on his/her ability to carry out activities,

- respects the parents' and child's right to confidentiality
- The setting provides all students with a broad and balanced curriculum that is differentiated, personalised and age appropriate.

2.0 KEY AIMS AND PRINCIPLES

Key Aims

To increase and eventually ensure for students/students with a disability that they have:

- total access to our setting's environment, curriculum and information
- full participation in the school community.

Key Principles

- Compliance with the Equality Act is consistent with our setting's aims and equal opportunities policy and SEN information report.
- Our staff recognise their duty under the Equality Act:
- Not to discriminate against disabled students in their admissions and exclusions, and provision of education and associated services
- Not to treat disabled students less favourably
- To take reasonable steps to avoid putting disabled students at a substantial disadvantage
- To publish an accessibility plan
- In performing their duties our school governors have regard to the Equality Act 2010
- Our Setting recognises and values the young person's knowledge and parent/carer's knowledge of their child's disability
- recognises the effect their disability has on his/her ability to carry out activities,
- respects the parents' and child's right to confidentiality
- The setting provides all students with a broad and balanced curriculum that is differentiated, personalised and age appropriate.

3.0 INCREASING ACCESS FOR STUDENTS with SEND TO THE SCHOOL CURRICULUM

This includes teaching and learning and the wider curriculum of the school such as participation in after school clubs, leisure and cultural activities or school visits.

- Individual Learning Plans are written for every student within our setting, these identify areas of need and establish interventions to support students. These plans are written with contributions from the parents and children and 6 monthly as a minimum
- Staff liaise closely with outside services and agencies, incorporating suggested strategies into Individual Learning Plans. Where appropriate staff also consult with the internal clinical team and Educational Psychologist.
- Tasks are differentiated and differentiated curriculums are established for students who are unable to access the age related curriculum, this includes differentiated learning and intervention to close learning gaps.
- A range of teaching methods and styles are adopted by staff to facilitate access to all students.
- A PACE approach has been embedded in all aspects of school life, ensuring that staff are sensitive to the needs of students.
- Risk assessment and high levels of supervision support vulnerable students.

- SMSC links are used to create a culture of understanding and acceptance across the school. This is done via Assemblies, PSHCE teaching and the school supporting charity events and having their own charity initiatives.
- Members of staff receive up-to- date training on current SEN Issues via the school SENCo, and where appropriate external specialists. Training also supports the development of positive teaching practice to support a range of SEND and intervention to support students with additional needs.
- A variety of clubs are available to all students, these can be accessed by all students dependent on the age ranges.
- Detailed risk assessments are completed for students to ensure that they are able to accompany their class on school trips.
- Learning, behavioural and emotional interventions are in place to enable learners to make rapid progress and close gaps in their knowledge base, these include ARROW, Catch Up Literacy and Numeracy, Talk About and Resilient Kids.

4.0 IMPROVING ACCESS TO THE PHYSICAL ENVIRONMENT OF THE SCHOOL

- The school building is accessible for all students with physical difficulties.
- Students are provided with resources according to their specific needs: For example sensory integration objects for those with proprioceptive needs. The outside areas are accessible to wheelchair users.
- All rooms in the building are accessible to wheelchair users.
- There is disabled parking at the front of the building.
- A disabled toilets are available on every corridor.
- Displays in the school celebrate student achievement.
- Communal places are 'clutter free' to facilitate easy movement.

5.0 IMPROVING THE DELIVERY OF WRITTEN INFORMATION STUDENTS with SEND

- Visual timetables are available for students who require them, these are written by the student and their tutor so that they are highly personalised to the students needs.
- Resources are clearly and simply labelled across the school.
- The school website is easy to navigate, and includes a Student and Parent zone
- According to their needs, students may use filters, coloured paper or large print enabling them to access information more easily.
- Access arrangements are assessed for during year 9 so that additional provision can be identified for GCSE years if it has not already been done so.
- During induction detailed Literacy and numeracy assessment is undergone to highlight the required level of any students learning and the support they require to achieve their best.
- Every students has daily Home/School contact which allow easy communication between tutor and parent.
